Bursar

Wood Bursary

The Wood Bursary is tenable for the period of the undergraduate course in Medicine at Edinburgh University and is at present of the value of £100 a year. The Bursary was founded by Dr Alexander Wood, a Fellow of the College from 1840-1884 and President from 1855-1861, to commemorate his father, Dr James Wood and himself. The conditions of the Bursary were modified by the Educational Endowment Commissioners in 1935, but it is still awarded on a competitive examination in Latin, Greek, English and Mathematics as laid down in Dr Wood's will. The Bursary is normally awarded once every five years and a vacancy is advertised as it occurs. Under certain circumstances a bursary may be awarded to a student who has completed part of his medical course.

Bursar

Edith McLeod Lamont

Dr Alexander Black Bequest

In the year 1923, intimation was received from the Trustees of Miss Anne Louise Black of Castlebank, Cupar, of a bequest of £1000 for the purpose of applying yearly and in perpetuity the proceeds thereof in providing bursaries, or scholarships, or books for the Library or for any other or similar purposes connected with the College, the same to be connected in perpetuity with the name of her brother Dr Alexander Black, a former Fellow of the College, and to be termed the "Dr Alexander Black Bequest."

The Council has decided to apply the annual income to the purchase of special books for the Library to be marked by an appropriate book plate.

Jean Hunter Fund

Under the will of the Rev. William Turner Hunter the Council of the College received a sum of £500 in trust as a fund, the interest of which shall be used for the advancement of research in the treatment of nervous exhaustion, with special reference to the subject of hydrotherapy (in relation to psychopathic conditions), such fund to be known as the Jean Hunter Fund, to establish a Prize periodically for an essay on the above subject. The Prize is open to graduates of Edinburgh University and to Licentiates of the Royal Colleges of Edinburgh, with priority to Fellows and Members of the Royal College of Physicians of Edinburgh, other things being equal, and the Prize shall be of the value of fifty pounds (£50) and shall be offered at such intervals as allow the necessary interest to accumulate. Should the essay be of such originality and interest, the Council of the College shall at their discretion arrange for publication.

LIBRARY, RESEARCH LABORATORY AND MUSEUM OF MATERIA MEDICA

The College Library

The Library of the College is the oldest medical library in Scotland. A few weeks after the foundation of the College in 1681 Sir Robert Sibbald gave to the College some 100 books to be the nucleus of a library. His gift was followed by many others and a system of regular purchases was instituted. Before the end of the seventeenth century a very good collection of the available medical literature had been assembled and the Library had become, what it has been ever since, one of the major activities of the College and the chief burden on its funds.

As a result of its long unbroken history the Library is particularly rich in the early sources of medical knowledge and possesses many rare and some unique books. It contains also over 1000 volumes of manuscripts for the most part connected with the founders of the Edinburgh Medical School.

The number of volumes in the Library is now over 150 000. The Library fabricates a remarkable collection of unbroken runs of periodicals and all the important medical works are represented in some edition. At the present time 500 journals are received each year and a selection of the more important monographs is added to the Library. A list of accessions is issued quarterly. The scope of the Library has always been primarily medical. In 1953 agreement was reached with the Royal College of Surgeons whereby Fellows of either College have equal rights and privileges with regard to the libraries of the two Colleges. This has enabled duplication of books and journals to be greatly reduced and a much wider range of medical and surgical literature is now available to the users of either library.

Books are lent to Fellows resident in Great Britain and bibliographical information is supplied to all Fellows. Books are also lent to Libraries and Research Institutions under conditions approved by the Library Committee. As a result of a decision made at the Quarterly Meeting of the College held in May 1953 books can also be lent to registered borrowers who are not Fellows of the College.

The Research Laboratory

The control of the Laboratory passed from the College to the University on 1st October 1950, following a decision of the Carnegie Trustees who were the owners of the property at 2 Forrest Road. Thus there was brought to an end a notable chapter in the history of the College, covering a period of sixty years, during which much valuable research work was accomplished and reporting facilities were afforded to very many over the length and breadth of the land. It is satisfactory to record that the premises continue to be

used for research purposes and that the Histological Department is remaining at Forrest Road. It is hoped that the latter will be perpetuated under whatever form the Lister Memorial Scheme, to which the College was a generous contributor eventually takes and that its title will be such as will serve to commemorate the long and distinguished record of the Royal College of Physicians in research during the past sixty years. A history of the Laboratory has been compiled by Dr John Ritchie and was published in November 1953. It is available on request to Fellows.

Museum of Materia Medica

The Museum of Materia Medica, formerly kept at the College, was transferred in the year 1896 to the Pharmaceutical Society of Great Britain, 36 York Place, Edinburgh, where it now is. Fellows of the College have free access to consult the Collection at any time and Licentiates of the College and Students of Medicine have access to the Collection on producing an order to that effect signed by any Fellow of the College.
